Maybe even better than free.

You don't need any special software installed to be able to download your files. No account or credit card is required to get started. Using file, you can circumvent those limits without paying to upgrade your team chat service. If only we could, we surely would! On the other hand, using file can actually save you money. You can give this download link to your friends by mail or instant messenger. File is free to use with no gotchas and no hidden fees. We have no file size limit. Any file in any format can be uploaded and downloaded for free. Keep your files private, or send your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file. Unfortunately, we can't make that part free. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files can be downloaded from any computer from our high speed servers. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Your wallet will be none-the-lighter! Just so we're all 100% clearhere: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Filestransferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You decide who you want to shareyour files with. Simply upload your file and share the link. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, manyteam chat apps have limits to the size of files that can be transferred within their apps. Our service is completely free for everyone. It is also allowed to link tothe download page from websites and communities. You can upload any type of file (movies, music, documents, images, zip files and more). There are norestrictions on the number of times a file can be downloaded. So try our free and simple filehosting service now. When you use file, you avoid storing the fileyou're sending in your cloud storage or mail server. filehosting provides an easy possibility for you to send large files to your friends. Alternatively you canchoose to share your download links on blogs, forums and social networking sites.
