# Diablo 3 season 13 journey guide list pdf file size

Adjusted the difficulty of Tiers 100+. Added: Fields of Misery, Desolate Sands and Briarthorn Cemetery Removed: Sewers of Caldeum, and Hidden Aqueducts The probability of Greater Rift maps has been adjusted. We've also updated Arreat's Law to allow players to reach new levels of Fury. Or will they be forever trapped, becoming just another fallen Nephalem? Ancient Spear refunds up to 25 50 Fury based on the distance of the enemy hit and resets your Fury cap to its base maximum. We found inspiration in Orek's warning, "Many Nephalem have stood where you are now, but few succeeded in overcoming the trials." The Echoing Nightmare explores what happened to those Nephalem who did not succeed. Developer's Note: Norvald's Fervor is overperforming across multiple sets. Digital Foundry said there was no difference in game assets and textures to attribute any file-size discrepancy to. The Whisper of Atonement is a Legendary Gem used exclusively for Augmenting Ancient Legendary items. Return to Top Haedrig's Gift Finally, just as before, you'll get a shiny new Class Set courtesy of Haedrig's Gift for completing certain chapters in the Season Journey. Fixed a bug where Boon of the Hoarder allowed gold to drop in Echoing Nightmares. Bindings of the Lesser Gods: Enemies hit by your Cyclone Strike take 150%-200% more damage from your Mystic Ally for 5 seconds. We reviewed all of the maps and monsters that appear in Greater Rifts and reworked the probabilities overall to make sure players spend more time with the content they enjoy. Increased the possible rank a Whisper of Atonement can drop to 125 based on the Tier completed. For every 1% Life you are missing, the damage of your Ancient Spear is increased by 2%. Today's Nephalem must stand their ground until they are inevitably Overwhelmed or defeated. Only time will tell... For those new to Seasons, here's how it works: Completing Chapters 2, 3, and 4 of the Season Journey will reward you with three Haedrig's Gifts. Rift Guardians now spawn. Here are the sets granted by Haedrig's Gift in Season 26: Barbarian - The Legacy of Raekor Crusader - Armor of Akkhan Demon Hunter - Embodiment of the Marauder Monk - Inna's Reach Necromancer - Pestilence Master's Shroud Witch Doctor - Zunimassa's Haunt Wizard - Delsere's Magnum Opus Return to Top Patch Notes Below you will find the patch notes for the upcoming update for Diablo III. Patch 2.7.3 Table of Contents: Seasons Greater Rift Updates Items Bug Fixes and Misc Updates Note: All changes apply to all versions of Diablo III, including PlayStation 4, PlayStation 5, Xbox One, Xbox Series X|S, Nintendo Switch, and PC unless otherwise indicated. UPDATE 2 13/08/2014 4:24pm: Blizzard has confirmed the inaccuracy of the Sony listing to Eurogamer and provided us with file sizes for the European PlayStation Store version of Diablo 3: Ultimate Evil Edition on PS4. Fixed a bug that caused Orek's Dream opening VFX to display inconsistently. Seasons Season 26 introduces the Echoing Nightmare, an optional and rewarding end-game challenge where players fight within the memories of Nephalem who fell in a Greater Rift. Oh look it's another pricey Xbox accessor... Will these Nephalem heed the whispers of atonement of fallen heroes and survive their echoing nightmare? 3 maps have been added and 2 maps have been removed from the Greater Rift pool. 2.7.3 Update: Xbox Series X|S resolution has been updated. If your Ancient Spear - Boulder Toss hits 5 or fewer enemies, the damage is increased by 100%. Season Theme Details: Petrified Screams and the Echoing Nightmare can only be accessed with seasonal characters. Developer's Note: We're happy with the gameplay of Inna's Mantra Monks, but the Fire build is overperforming, so we removed the Fire Ally bonus from the Bindings of the Lesser Gods. Reduced the Echoing Nightmare closing timer to 30 seconds. Fixed a bug where Orek's Dream vignette sometimes goes away on Shrouded Moors and Festering Woods when entering anything other than level 1. Rare monsters now spawn within an Echoing Nightmare. While within an Echoing Nightmare, the difficulty scales as players progress in the encounter. A spokesperson told me Blizzard was investigating. Further increased the progression granted by some monsters in Greater Rifts. Additionally, increased the progression granted by Fallen Shaman, Fallen Conjurer, Fallen Prophet and Fallen Firemage. The following monsters have been adjusted to grant more progression and EXP within Greater Rifts. Fixed a bug that caused Conduit Shirines to deal less damage than intended. Return to Top Seasonal Cosmetic Rewards Beginning with Season 17, we began reintroducing previous rewards to make them available to players who may have missed them the first time around. Updated the Orek's Dream vignette to be more pronounced. Players must collect a Petrified Scream from defeated Greater Rift Guardians to gain entry to the Echoing Nightmare. It felt natural to the team to infuse the charging fantasy of Raekor's Legacy with the Barbarian's ranged skills. Norvald's Fervor: Gain 200% increased damage while using Steed Charge and for 5 seconds after it ends. The retail version we've installed from disc to review, however, only occupies 41GB. Hellish Machinations now appear, which spawn streams of Exploding Lunatics. In the Echoing Nightmare, players will experience an intense, densely packed, increasingly challenging event that stretches their ability to stay in the fight as long as possible. Just remember—you cannot judge Justice itself! However, we know it's nice to have something new to aim for if you've participated in previous Seasons. A Blizzard spokesperson provided the following statement: "The original Sony listing is an error - the actual size of the game client which is also comprised of the language files for the game in English, French, German and Italian, is 37.8 GB. Adjust Meteor and Fallen Lunatic Molten damage to be Physical. Read on to learn more about the season theme and balance changes coming in Patch 2.7.3. We are expecting this update to be released on April 12. Diablo 3: Reaper of Souls requires 25GB hard-drive space on PC. Is it language packs that cause the discrepancy between Xbox One and PS4? Weapon Throw generates up to 25 50 additional Fury based on the distance of the enemy hit. Updated the Shadow Clone explosion to better reflect the area of effect. We want to bring its power down, but we are increasing the utility of Thorns of the Invoker to compensate. Each Gift contains a few pieces from one of your Class Sets. This effect stacks and each spear throw consumes a maximum of 5 stacks. Return to Patch Notes Table of Contents Return to Top The generated Fury can go above the maximum cap by 200 Fury. Update on 4/15: Season 26 is now live! Update on 4/12: Patch 2.7.3 is now live. Season 26 will begin on April 15, at 5PM (PDT/CEST/IST) shortly after our next Diablo III update. These dramatic rifts have a curated list of maps and monster compositions. The Three Hundredth Spear: Increase the damage of Weapon Throw and Ancient Spear by 150-200%. The extra size on PS3 is used for multiple language packs, which are 3.5GB each. Return to Patch Notes Table of Contents Return to Top Bug Fixes | 2.7.3 Prevented players from changing difficulty while an Echoing Nightmare is active. Replaced the Shield Pylon with a Speed Pylon. Transmuting a Petrified Scream in Kana's Cube summons a portal that players can enter to face the horrors of the Nephalem's past. Similar to a boss encounter, all players in a multiplayer game must accept a prompt to enter. Return to Patch Notes Table of Contents Return to Top Items Barbarian Legacy of Raekor (4-piece Bonus): Furious Charge gains the effect of every rune and deals 1000% increased damage. To collect a full Class Set, you'll need to open all three on the same character. oh, hold on. To download the game from the PlayStation Store means downloading 62.7GB of data. Endure The Fall of the Nephalem and complete the Season 26 Guardian Journey to earn the Rakkis' Remembrance portrait and the Toothsome Trooper pet. Diablo 3: Reaper of Souls - Ultimate Evil Edition comes out really soon - 19th August - on PS3, Xbox 360, PS4 and Xbox One. This is our first Seasonal Theme that introduces a new activity to the game. It drops pre-ranked based upon the player's performance in the Echoing Nightmare. Players receive the following rewards upon completing an Echoing Nightmare: EXP, Legendary Items, Blood Shards, Gems, and a new Legendary Gem, Whisper of Atonement. Skular's Salvation: Increase the damage of Ancient Spear by 150-200%. Increased the frequency of which monsters spawn. Developer's Note: We reworked Raekor's Legacy to give the set its own identity. The probability of monster groups has been adjusted. Crusader Thorns of the Invoker: The attack speed of Punish and Slash are increased by 100% and deal 67,500% of your Thorns damage. For the nephalem hero who wants to embody the spirit of Justice, a pennant dedicated to everyone's favorite archangel will also be available. New Updates (Post-PTR) Monsters from the Echoing Nightmares no longer drop gold, Items or health globes. Xbox Series X now runs at true 4K resolution and Xbox Series S runs at true 1080p. In addition to the Boots and Pants slots of the exclusive Conqueror Set, a series of portrait frames themed around the enigmatic Tal Rasha will be available. Adjusted the damage done by Exploding Lunatics and Meteors to be more deadly. Meteors now fall from the sky. "When players actually download the game they will get the game and the language file of their choice, which will come in at around 16GB." UPDATE 1 11/08/2014 9:03pm: Blizzard has told me the PS4 Ultimate Edition file size listed by Sony for download - 62.7GB - is inaccurate. Return to Top Season Journey Rewards If you've been playing the past few Seasons diligently and reached Conqueror in the Season Journey each time, you've accrued a few extra stash tabs. Prevented Echoing Nightmares from being opened in games lower than level 70. Updated visual effects upon entering an Echoing Nightmare. Return to Patch Notes Table of Contents Return to Top Greater Rift Updates We wanted to improve the Greater Rift experience through quality of life updates, balance changes and addressing community feedback. The Xbox 360 version has 7.5GB - full dual-layer DVD capacity - on disc, and that's installed onto the machine's hard-drive. Arreat's Law: Weapon Throw and Ancient Spear deal 150-200% increased damage. Less spaghetti and more chickens! Orek's Dream: Greater Rifts have a small chance to roll as Orek's Dream. Digital Foundry is investigating and we've asked Blizzard for clarification. This option is only available when in a single player game. Mystic Ally - Earth Ally: Earth Ally boulders speed has been increased. Only one player is required to transmute a Petrified Scream to open an Echoing Nightmare in a multiplayer game. The exit timer has been increased to 60 seconds. Blazing Guardians Smoldering Guardians Frost Guardian Noxious Guardian Shock Guardian Blood Clan Spearman Dark Moon Clan Impaler Moon Clan Impaler Blood Clan Impaler Ice Clan Impaler Hell Witch Vile Temptress Players can speak to Orek to close an active Greater Rift. We've listed the available Sets below. The retail version Digital Foundry installed on Xbox One occupies 21.82GB - just over half the space required on PS4. Players who have not yet earned a total of five stash tabs via the Season Journey can still unlock an additional one by completing the following tasks at the Conqueror tier: Complete a level 70 Torment XIII Rift in under 5 minutes Complete Greater Rift 60 solo Kill Greed on Torment XIII Kill the Butcher at level 70 in Torment XIII in under 30 seconds Reforge a Legendary or Set item Augment an Ancient item with a Level 50 or greater Legendary Gem Level three Legendary Gems to 55 Complete two Conquests Return to Top Seasonal Conquests Speaking of Conquests, we're rotating those, too! Returning for the Season of Greed is Avarice and Avarita, to give every gold piece you find will count! Speed Demon and Need for Speed will ask you to kick it into full gear in your Nephalem Rift runs. Prevented Earth Ally boulders from being slowed by missile dampening. Adjusted the drop rate of Petrified Screams from Greater Rift Guardians. Developer's Note: We've added additional Weapon Throw buffs to give players more build options when playing the reworked Legacy of Raekor set. Boulders always leash to the player regardless of how many monsters are on screen. Monsters in Echoing Nightmares can no longer be Frozen, Stunned, Rooted or Knocked Back. Legacy of Raekor (6-piece Bonus): Hitting enemies with Furious Charge or Weapon Throw increases the damage of your next Ancient Spear by 5500% and causes it to release multiple spears from its target. On a Good Day and I Can't Stop will congratulate high ranking Legendary Gems. Mystic Ally - Fire Ally: Mini allies now have Passability. An installation of the game with audio in a single language will only occupy around 16GB of space. Table of Contents New Season Theme The souls of heroes defeated in the eternal struggle against evil call for aid! Astute Nephalem will listen to the petrified screams of the dead, and find themselves attuned to the last agonizing moments of the departed. Developer's Note: We've made improvements to Mystic Ally that should make the skill feel more fluid and less clunky at times. Monk All Mystic Allies spawned by Inna's Mantra 6-piece bonus now have their duration refreshed with each attack. Players can progress faster by defeating monsters quickly. ORIGINAL STORY 11/08/2014 12:40pm: The Ultimate Evil Edition of Diablo 3 - which includes the Reaper of Souls expansion - is much larger in terms of file size on PlayStation 4 than it is on Xbox One. Diablo 3: Reaper of Souls - Ultimate Evil Edition isn't listed on Xbox.com or the Xbox Live Marketplace so the download size for Xbox One (or Xbox 360) isn't known. Finally, for the solo crowd, Divinity and Lionhearted will ask you to climb Greater Rift heights by your lonesome, while Years of War and Dynasty challenge your game mastery of at least six classes. In Season 26, we introduce the Echoing Nightmare. The PS3 game has 22.05GB of data on the Blu-ray disc. Digital Foundry said, and there doesn't seem to be an option to install any of it. For Season 26, this means awards originally available from Season 14 are returning. The attack speed of Weapon Throw is increased by 200%. Adjusted the EXP rewarded by Echoing Nightmares to be aligned with Greater Rift turn-in rewards. We're continuing to provide new End of Journey rewards as introduced in Season 17, with two new cosmetic ones for those who complete the entirety of the Season journey. Players can only unlock one Class Set in this manner per Season across Hardcore and Non-Hardcore, so choose wisely! The set you will receive depends on the Class of the character you're playing when you open each Haedrig's Gift.
